

ACCESSIBLE DESIGN

COMCARE

R9

Solutions for

Health, Aged Care & Accessibility Solutions
Food Preparation & Processing Plants
Hotels & Shopping Centers
Sports & Leisure Facilities
Education & Universities
Public & Commercial Facilities

The ComCare range has been designed to comply with the latest Access Code requirements. Gentec have sourced the most advanced accessible European products that are tried and tested.

Providing accessible solutions in bathrooms has become increasingly important. The demand is for solutions which incorporate comfort, convenience and function with aesthetic designs. For a variety of living spaces, such as the home, public and in the healthcare sector, the ComCare range will enhance your facility by providing a hygienic and easy to care for product. This range offers practical and comfortable solutions without creating an institutionalised atmosphere.

Market Usages

Public facilities, Community Centres, Health & Aged Care Centres, Hospitals, Council Facilities and Commercial Facilities where Hygiene counts.

Technology

The technology used in conjunction with our product is the latest European Design and Sustainable Materials. The materials used are simply the best on the market. Comcare products have been tested by SGS laboratories against antimicrobial, the result is >99% pass.
