

SINGLE LEVER MIXERS

NUGEN

Solutions for

Health, Aged Care & Accessibility Solutions
Food Preparation & Processing Plants
Hotels & Shopping Centers
Sports & leisure Facilities
Education & Universities
Commercial Facilities

The robust Nugen mixer range is aesthetically pleasing, heavy-duty and specifically designed with European technology and functionality for use in any commercial facility. This range is invaluable in providing water and energy savings in commercial applications with high usage.

This range has been designed to incorporate our Cold Start technology with a soft close operation that ensures cost effective water and energy usage. These products are supplied with standard WELS 4, 5 star ratings; alternative 6 star and Green Star ratings available on request.

Market Usage

Health & Aged Care, Disabled & Accessibility, Food Industry & Processing, Shopping Centers, Schools & Universities, Sport & Leisure Centers, Spas & Hotel Projects, commercial applications.

Technology

The Cold Start cartridge is a specially Gentec designed cartridge that has a ceramic valve and allows the user to only draw cold water while the handle's direction is in the centre position. No hot water is drawn unless the user requires it and turns the handle towards the left.
